At Mulvane Vision Care

EYES FEELING DRY???

Thera Tears is a preservative FREE tear drop that provides instant relieve for dry eye. The fact that it is preservative free makes easy on your natural tear film. Ask about a free sample. If you like what you feel we stock it here at Mulvane Vision Care for your convenience.

Thera Tears Liquid-gel and Tears again Gel-Drops are a Thicker longer lasting tear drop that provides instant relief and stays around longer in the eye to keep providing relief.

GLITTER IN YOUR EYES!!!

Yes now you can with Ciba Glitter contact lenses. Ask Renee if they will work for you.

Radiant Contacts-PUTS A SHINE IN YOUR EYE

LIGHT FROM THE SUN CAN BE HARMFUL TO THE EYES.

Did you know that the sun emits UV-A and UV-B light that is harmful to the eye? Ultraviolet light can cause cataracts and macular degeneration. You can protect your eyes with MAUI JIM sunglasses. MAUI JIM 's are a “**sunblocker**” for the eyes. Ask Nancy about trying on a pair and see and feel the difference for yourself.

DOES YOUR CHILD OR GRANDCHILD STRUGGLE IN SCHOOL?

You might want to have his or her VISION checked. Notice we said VISION and NOT EYESIGHT. Vision is composed of: tracking skills that allow the eyes to move across the page to read, focusing skills that make print clear and easy to read, eye pointing skills that aim the TWO eyes to give one image (imagine seeing print slightly doubled...would that be hard to read?), perceptual skills that allow a child to understand what they see, and draw what they see. Did you know that scientist believe that HALF THE BRAIN is involved in

vision. Doesn't it make sense to have a child binocular exam done for your child to rule out vision as a possible problem that interferes with learning? Talk to Mary about making a Binocular Vision Exam for your child.

Baby eye exams...Really?

Did you know that what you now enjoy as vision is not given. You are not born with all the skills that make up vision that are talked about above. Unfortunately you cannot see VISION. Why not have your child checked first at 6 months of age. Dr. Cline does those baby exams, talk to Mary at the front desk to set up an appointment.

THINKING ABOUT UPDATING THAT FRAME AND PURCHASING LENSES?

At Mulvane Vision Care we have the combined optical experience of 20 years. Our staff attends education on the latest lenses and frame styles to offer you the best looking eyewear with quality optics.
