

# What's New

March 2003

At Mulvane Vision Care

## **Would you like some relief from dry eye???**

There is a new procedure that involves plugging up the tear drainage system in the eye with a micro plug. This serves to maintain more tears in the eye because less is being drained out. Ask about a FREE brochure explaining the procedure. The procedure is short, painless, and done here in clinic at Mulvane Vision Care. Most Insurance companies pay for testing of dry eye and procedures like micro plugs that relieve it.

## **TODDLER SUNGLASSES**

Harmful UV radiation does not only affect your eyes but your toddler's eyes as well. Nancy has just received a shipment of EYES CREAM SHADES. These adorable sunglasses come in shatter proof polycarbonate for maximum protection as well as fully UV protected. If your child wears a prescription some of these EYES CREAM SHADES can be made with your child's prescription in them. Ask Nancy to see a pair.

## **BOARD CERTIFICATION IN VISION AND LEARNING**

Did you know that Dr. Cline is one of only 3 doctor's that is board certified in Vision and Learning Problems in the state of Kansas? Dr. Cline certified in 1996. This involved over a 1000 hours of Vision Training with patients, open book exams, case studies, oral exams, and a written closed book exam. This is part of our commitment to our patients here at Mulvane Vision Care. If your child struggles in school it may not be a learning problem. Your child may have a Vision problem. Vision being understood to be a tracking, focusing, eye aiming problem and/or perceptual problem. Ask about our FREE screening for your child.

## **HAVE ASTIGMATISM AND WANT CONTACTS?**

If you have astigmatism you can wear contacts. Depending on your prescription and eye curvature you may even be able to wear 2 week daily wear disposable contacts.

## **ARE YOUR CONTACTS DRY?**

Extreme H2O and Proclear are two new brands of contacts that make our dry eye contact lens wearers more comfortable. Ask about trying on a pair.

## **WHAT DOES IT TAKE TO BE A VISION THERAPIST?**

Clara, Kathy, Mary, and Ginny have combined experience of over 20 years of working with children with vision problems that interfere with learning. This means a child's visual system is interfering with how they learn. Teaching this system to work correctly makes learning easier and more productive. All of our vision therapists at Mulvane Vision Care are former teachers so they like working with children. All are trained by Dr. Cline and all take continuing educational courses offered at regional sites. National certification is offered to Vision Therapists. Want to learn more? Call Kathy or Clara at 777-0022.

## **COMPUTER VISION TESTER**

Do you use a computer? Do you ever experience blurred DISTANCE vision or blurred near vision? Do you experience headaches while working on the computer. Dr. Cline can perform testing with the PRIO Computer Vision Tester to determine if computer lenses are right for you. These lenses typically get rid of the visual symptoms while using the computer. Did you know Mulvane Vision Care is the only practice in the State that has this instrument available? Ask for a FREE packet of information on COMPUTER VISION SYNDROME. Computer lenses can make using the computer easier.
