

## **TIRED OF THE GLARE?**

Millions of people suffer from eyestrain caused by glare and reflections on their glasses. Long hours in front of a computer and harsh artificial lighting can contribute to eye fatigue. At Mulvane Vision Care we offer CRIZAL anti reflective lenses. CRIZAL lenses are proven to dramatically reduce eyestrain by reducing glare and annoying reflections. CRIZAL anti reflective lenses are designed with two sided scratch resistance, making them durable and long lasting and they reduce the reflections other people see on your glasses. By sharpening visual performance, CRIZAL anti reflective lenses will help you to see more clearly.

## **NEXT GENERATION TRANSITIONS**

At Mulvane Vision Care we are pleased to introduce Varilux next generation TRANSITIONS Lenses....Lenses that lighten and darken automatically depending on the current light condition. TRANSITIONS are as clear as standard lenses indoors, and as dark as sunglasses in the bright light of outdoors. "NEXT GENERATIONS" darken six times faster than previous TRANSITIONS and fade back three and a half times faster! Available in gray or brown tint, TRANSITIONS offer one-hundred percent UV-A protections. Ask about Varilux "NEXT GENERATION" TRANSITIONS lenses.

**CHILDREN'S VISION:** Your child may have passed a vision screening at school, but it is also important to complete a comprehensive eye health examination. Vision is more than just seeing twenty-twenty; Visual fixation, eye tracking, focusing, eye teaming, visual perception and visual-motor integration are all essential. Vision problems can interfere with the ability to perform in the classroom and can impair the ability to read efficiently. Many children who experience academic difficulty may have a treatable visual dysfunction. Please schedule an appointment for your child today.

**SUNBLOCKER FOR THE EYES:** Just as it is important to protect your skin from the harsh rays of the sun, it is also important to protect your eyes from ultraviolet and infrared light. Long term exposure to

sunlight has been linked to cataracts and other eye problems. At Mulvane Vision Care we carry a wide variety of fashionable sunglasses, including the latest styles from Maui Jim, Eyes Cream Shades and Easy Clip. Ask our optical staff to show you a pair.

**HOW DOES VISION EFFECT LEARNING:** To find out Dr. Cline is hosting a **FREE** seminar on this topic **November 11, at 6:30**. Plan to attend a 45 min presentation that may help you discover a vision problem that can be interfering with how your child learns.
